## About Me

Passionate Flutter Developer with proven expertise through personal projects and a strong foundation in cybersecurity. Though lacking formal professional experience, I have acquired extensive knowledge across various industry domains. My one years of Competitive Programming have honed my problem-solving abilities. I am eager to apply my skills in developing innovative solutions and contributing to the ever-evolving technology landscape.

## Skills

- Flutter and Dart
- Firebase, Cloud Messaging
- Local Notification, Alarm, RESTApi
- SharedPref/Hive/Sqflite
- Clean Architecture (BLoC, GETX, Provider)
- Socket.io, ZegoCloud, Agora
- GIT & CI/CD
- NextJs and JavaScript
- C/C++/Java/Python

## Language

- English
- Bangla

## Education

**Daffodil International University**

2021 – 2024

BSC in CSE

CGPA: 3.64

## Experience

**Flutter & Next.Js Dev**

05/2025– Current

BN Inc. – (REMOTE) 4064 Intrepid Cir Bismarck, ND, United States

As a Flutter Developer at Bowlers Network Inc., I develop responsive mobile applications using Flutter and Dart, and build Website with Netx.JS. During my time here, I've worked on numerous projects following clean architecture principles and the BLoC pattern.

**Jr. Flutter Dev and Team Lead**

12/2024 – 09/2025

Join Venture AI – Banashree, Rampura, Dhaka

As a Junior Flutter Developer at Join Venture AI, I build responsive mobile apps using Flutter and Dart. My expertise includes GetX for state management, REST API integration, and Socket.IO for real-time features, ensuring clean, scalable, and efficient code delivery.

## Projects

**LifeQue**

2025 Jan– 2025 Feb

BLoC, Clean Architecture, Alarm, Notification, NativeAPI

LifeQue is your ultimate Islamic lifestyle and productivity companion – combining accurate prayer times, Qibla direction, smart alarms, Pomodoro-style study timer, and powerful task management – all in a beautifully designed app built for the modern Muslim..

**Campus Saga**

2024 Jan – 2024 May

Flutter, BLoC, Clean Architecture, Firebase, Notification, Animation

A dynamic campus community app designed to streamline student engagement through real-time notifications, seamless Firebase integration, and smooth animations, enhancing user experience and communication.

**Gestion – Hotel Booking**

2025 Jan – 2025 March

Getx, Firebase, Cloud Notification, Publication Playstore & iOS Store

A hotel booking status view featuring a custom calendar application. Built with Getx, Firebase, and cloud notifications, it provides real-time booking updates and notifications. Available on both [Google Play Store](#) and [Apple App Store](#) for seamless user experience.

**Zen Active – Fitness App**

2025 Feb – Jun 2025

Cloud Notification, Getx, RestAPI, Payment, CI/CD

A comprehensive fitness app with cloud notifications, Getx state management, REST API integration, payment processing, and CI/CD pipeline. It offers social media-like features including posts, groups, and messaging, along with full fitness functionalities and offline video viewing for uninterrupted workouts.
